25X1

MEMORANDUM FOR: DIA TOD Representative

SUBJECT : Structure of TOD II-1969.

1. At our meeting on 1 August I furnished you a copy of a tabulation depicting the various subdivisions of TOD II-1969 insofar as they apply to the CIP. I am now attaching a more complete, revised version of that listing. This shows the subdivisions available for use within the TOD classification system as it has been developed to date.

2. In order to keep the classification of the attachment at the level shown, I have listed only the CIP in column (1). However, except for changes in the names of the Programs (column (1)) and the Agency and Service participants in the Programs (column (2)), the same basic structure as shown here is used for all the other programs participating in TOD II-1969. As you are aware, not all of these subdivisions will, in practice, apply to every program. This attachment, however, represents our effort in the TOD Committee to settle on a taxonomy which will serve as a common matrix for all kinds of intelligence activities by all the players in the game.

3. In your use of the attachment as a briefing tool, please explain that the structure as developed to this point is bound to change and evolve further. Part of our analysis of TOD II-1969 will involve the usefulness, adequacy and consistency of the "language" which we have adopted. It is sure to be modified to some extent for the next TOD cycle.

25X1

4. Suggestions for change are always welcome. They will help the TOD Committee establish a more useful and reliable mechanism.

Office of the Director of Central Intelligence

Director, Intelligence Division
